

The Cabell County Library

Connection

Spring 2019

The Director's Column

The Friends Script

Have you ever wondered what the Friends of the Cabell County Public Library do? Have you ever wondered just what IS the purpose of the Friends? Let me answer those two questions for you, by using quotations taken from the Friends Constitution.

The Friends "aid in the development of public library service by maintaining an association of citizens interested in increasing the public library facilities..." For example, our local Friends helped pay for the installation of much needed new lighting inside the West Huntington Branch. The Friends helped fund the new outdoor sign at the Guyandotte Branch. And we are presently in the process of helping to pay for a new printer-scanner-copier for the Salt Rock Branch.

The Friends help "focus the attention of the citizens of Huntington, Cabell County and the Tri-State area upon the needs of the public library...". The Friends fund, in part, a Legislative Day at the state capitol in Charleston, the annual Bolt For Books 5 K Run/Walk, and we pay for this informative Connection magazine you are presently reading.

Finally, the Friends "enrich the cultural advantages available to citizens of the Tri-State area through the Cabell County Public Library." We help finance the CCPL's Summer Reading Program. Most recently, the Friends helped sponsor a program on African-American Genealogy at the Downtown Library.

Now that I've answered the questions I posed above, let me ask you something. Have you renewed your Friends membership? Or do you know someone who would like to join our group? If so, please take a minute and call the Cabell County Public Library at 304 528 5700 or turn to the back page and use the form there to renew your membership or to join the Friends. For as little as \$5.00 you can join our group and show your support for the Cabell County Public Library.

Bill Patton, President
Friends of the Cabell County Public Library

It is getting to be that time of year again—our 18th annual Gala. We are going to visit Greece this year and the food is going to be terrific! I love baklava and that will be the finale of the meal. I want to say early in this column, in case you don't read to the end, that we have planned for a vegetarian option for the meal. Please be sure to indicate to us if some of your tickets need to be vegetarian and you can do this by calling the library when you receive your tickets. We look forward to having a great time and do hope that you can join us for an evening of good food, good fellowship, and some great prizes. Proceeds from the Gala will again be used toward the match for the National Endowment for the Humanities Grant for the construction of a new Barboursville Branch Library.

We also have scheduled, and are in the middle of planning, Bingo Night. Huntington High School is graciously letting us use their cafeteria again. Mark your calendars for Tuesday, May 21 starting at 6:00 P.M. Again, we have some really nice prizes and the evening should be a lot of fun.

I want to be sure you know that children who have fines can "read them off". For every hour that young people read, we will forgive \$5.00 in fines. This offer is for fines only and not for lost or damaged materials. Also, National Library Week is in April and anyone can have fines forgiven by returning the materials and asking that fines be forgiven. Even if the materials are returned earlier, if they had fines, we will forgive those fines; all anyone has to do is ask!

I am looking forward to the quilts being hung in the Main Library during March. That is always a highlight of the spring season. The only problem I have with it is when the quilts come down, everything looks so bare: but we certainly enjoy them while they are here.

"1,000 Books Before Kindergarten"

Bring your child in to one of our libraries today and sign up for our "1,000 Books Before Kindergarten" program. Children will win incentives for every 100 books that they read with their caregiver with the goal to read 1,000 books before they begin school. Ages birth – 5. In collaboration with the Western Counties Regional Library System, Facing Hunger Food Bank, Cabell County Schools, and the West Virginia Department of Education. Made possible by the WV Leaders of Literacy: Campaign for Grade Level Reading Partner Grant.

All of the scientific evidence points to the fact that children who get engaged early in life with reading are more likely to lead successful and fulfilling lives. It is never too early to get young children involved in reading. Check out all of the opportunities the Cabell County Library offers to help create the next generation of readers!

So, Just How Tall is Richard Gere...?

Richard Gere's height is important to many people for many reasons, I feel certain. For the Reference Department Mr. Gere's height is important because it serves as a reminder of how important accurate information is, and how to find it. The question was raised when a patron called for this information. Scouring to the ubiquitous digital knowledge repository (that would be the interwebs), we found out that Mr. Gere is either 5' 8", 5'10", or 5' 11". That's a problem. Adult human beings don't exist in a height-fluid environment.

This demonstrates the need to have reliable sources of information, or the need to be able to identify what is reliable and what is not. This is the new landscape of Reference work. Doubtless you have heard the question just how relevant are libraries in today's downloadable age? The answer is, more than ever! Providing guidance with what sources are legitimate and what ones are not is a major part of the training of an information professional. Reference work is no longer only about finding information it is about finding RELIABLE information. Navigating the digital landscape for facts is a precarious quest. But, fear not, for librarians are well trained to accompany you on that quest.

Whether it is helping patrons with employment applications, genealogy, providing resources for a term paper, or any research conducted by the staff at the library, the task remains the same for library staff as it did in the pre-digital era; namely, provide patrons with the resources which best suit the needs of their specific question. There are so many more opportunities to access knowledge and information that the need for libraries and librarians is greater now than ever!
